Fellowships & Grants Overview

The Paul Mellon Centre for Studies in British Art offers a variety of Fellowships (for individuals) and Grants (for institutions and individuals) twice a year in a strictly timetabled schedule. The programme supports scholarship, academic research and the dissemination of knowledge in the field of British art and architectural history from the medieval period to the present, although all supported topics must have an historical perspective.

We do not offer fellowships and grants in the fields of archaeology, the current practice of architecture or the performing arts. We have no discretionary funds outside our stated programme
